Drivers & Fleet Owners rarely sits behind the desk.

PROFFS - the *best place* for Your ad!

Hit the target!

Through our magazine, you can reach your entire market 12 times a year, each issue has an audited circulation of 12,800 items (2020). The ability to also advertise on our websites, offers your company an accurate market activity, all year round.

Our target audience is anyone who is somehow involved in road transports.

Drivers, fleet owners and courier companies are examples of customers you meet through our media.

This is Proffs

Our editorial base focuses on the daily lives of our readers. We write about everything from product launches to road safety issues and new rules and laws.

But perhaps what made us most famous among our readers, is our articles about the "cheaters" and "rogue

agents" in the industry. Our goal is to not let the abusive competition continue in secret.

We do this because we want the competition to take place on equal terms.

Do you agree?

Do you see the industry with the same serious eyes as we do? Then you should advertise in our media!

DB Schenker använder nu enbart eldrivna fordon inom Gothenburg Green City Zone. Två eldrivna paketbilar och en tyngre distributionsbil ser till att alla paket och allt gods levereras fossilfritt inom zonen.

SCHENKER ENGAGERAR SIG I GOTHENBURG GREEN CITY ZONE

DB Schenker inleder samarbete med Business Region Göteborg för att bidra till uppskalning av eldrivna godstransporter inom Gothenburg Green City Zone - och blir därmed första logistikföretag att engagera sig i initiativet.

AT

Business Region Göteborg är en av initiativtagarna till Gothenburg Green City Zone där företag, samhällsaktörer och forskare ska utveckla, testa och skala upp ny teknik för fordon och infrastruktur. Målsättningen är att alla transporter i delar av Göteborg ska vara helt utsläppsfria 2030 och den använda elen grön.

Just nu drivs tre av DB Schenkers fordon i centrala Göteborg av el – två paketbilar och en distributionsbil från åkerierna TGM och Bäckebols Åkeri. De tre fordonen hanterar paket som distribueras i evenemangsområdet och på Lindholmen, som båda ingår i

Som lyssnare kan du i den här podden förvänta dig att innehållet kommer att vandra i samma fotspår som Proffs redaktionella innehåll i övrigt, alltså med stort fokus på transportfusk. Men vi kommer också att prata om branschens positiva sidor, precis som vi ofta gör (inte minst) i den tryckta versionen av tidningen.

I den här avsnittet tar vi upp en del frågor om framtidens. Hur ser de bästa scenarierna på nuet och framtiden? Vad säger de om cabotagefuskare och andra oseriösa aktörer?

Går det att bli av med den moderna tidens slaveri? Vad innebär det när varje ledig asfalterad yta bevägras av utländska ekipage, inte sällan från ett och samma åkeri?

Har svenska transportörer några fördelar jämfört med andra medlemsstater idag? Och vilka är de mest påtagliga nackdelarna? Båda hökerytten talat spottar ut förutsländ - är det så?

När avsnittet, som vi presenterar i samarbete med Svenska NÄRKO.
